THE BALUSTRADE SPECIALISTS

RECESSED GLASS BALUSTRADE

CAPRA STEELWORX & GLASS

RECESSED GLASS BALUSTRADES

The Frameless Recessed Glass Balustrades (12 mm in thickness) is slotted into the concrete.

The glass is secured with a chemical liquid grout specifically formulated for this process, creating the ultimate in aesthetics. With no need for brackets or posts, Frameless Recessed Glass Balustrades are ideal for making the most of a view out from your home. Option for Grey Frameless Recessed Glass Balustrades allows a certain amount of privacy.

SIDE MOUNTED GLASS BALUSTRADE

CAPRA STEELWORX & GLASS

SIDE MOUNTED GLASS BALUSTRADE

The Side Mounted Frameless Glass Balustrade is mounted to the side of staircase, landing, balcony or patio, providing an elegant and structurally sound barrier.

Aesthetically stunning by retaining a view or sense of space that other types of barriers simply cannot achieve.

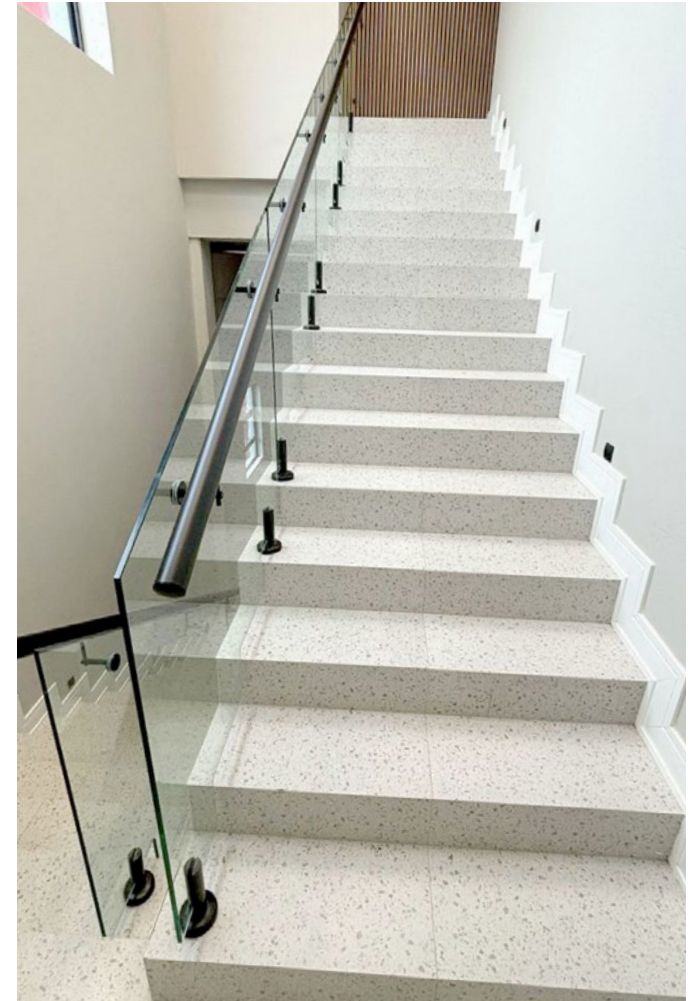

12mm Toughened Safety Glass panels create a near seamless finish with a choice of different colours of side mounts, ranging from 304 grade stainless steel to black to fit your style. Side mounts maximize the area of your staircase while providing safety and functionality.

FLOOR MOUNTED GLASS BALUSTRADE

CAPRA STEELWORX & GLASS

FLOOR MOUNTED GLASS BALUSTRADE

The Floor Mounted Frameless Glass Balustrade is are highly versatile and can be used internally or externally. They are not only stylish and sturdy they come in a variety of colours and finishes to suit your design requirements. They are made from high quality 304 stainless steel and are not only great for stair cases and balconies but also for swimming pool enclosures.

CURVED GLASS BALUSTRADE

CAPRA STEELWORX & GLASS

CURVED GLASS BALUSTRADE

Curved Frameless Glass Balustrades are made from 12mm toughened Safety Glass and can be installed recessed, side mounted or floor mounted. State of the art technology is used to do precise measurements of the curves of staircases, landings, balconies, terraces and walk ways to ensure a seamless flow.

STAINLESS STEEL BALUSTRADE

STAINLESS STEEL BALUSTRADE | ORDER CODES

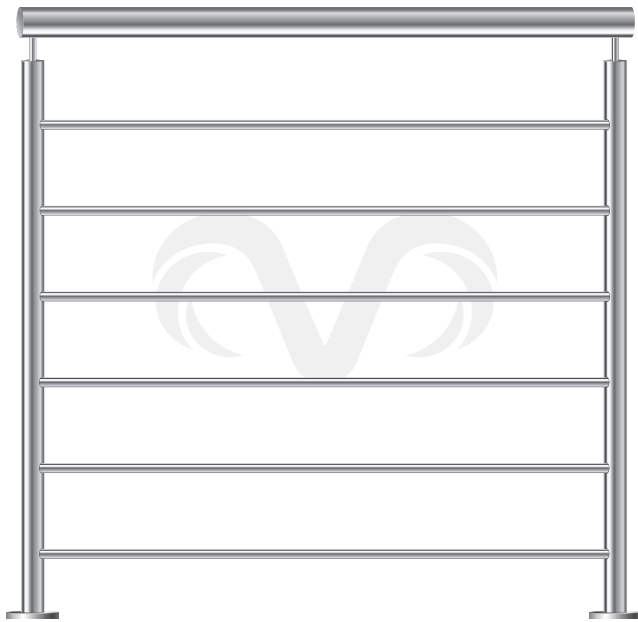

STAINLESS STEEL BALUSTRADE

The Stainless Steel Balustrade systems are made from high quality 304 grade stainless steel. There are various options to choose from with combinations of round or square posts and tube or cable horizontal dividers. We also provide options of brushed stainless steel or coloured powder coating.

STAINLESS STEEL PIN SYSTEM | ORDER CODES

Our Pin System consists of 304 grade stainless steel. Our posts are core drilled and anchored with a chemical compound cement for extra strong support. The stainless steel horizontal tubes offer strength and safety perfect for balconies, staircases and landings. You have a choice of the number of horizontal tubes ranging from 4 to as many as 12.
